NOTIFICATION

Parameter Definition

Below is the notification payload sent from KCB to the 3rd party's notification endpoint after crediting is done on the account. The 3rd Party is required to provide a secure IPN endpoint to which the notification is sent.

Request Body		
transactionReference	String	mandatory
requestId	String	mandatory
channelCode	String	mandatory
timestamp	timeStamp	mandatory
transactionAmount	String	mandatory
currency	String	mandatory
customerReference	String	mandatory
customerName	String	mandatory
customerMobileNumber	String	mandatory
balance	String	mandatory
narration	String	mandatory
creditAccountIdentifier	String	mandatory
organizationShortCode	String	mandatory
tillNumber	String	mandatory

The below payload response is expected from the 3rd party as a response acknowledging receipt of the notification.

Response Body		
transactionID	String	mandatory
statusCode	String	mandatory
statusMessage	String	mandatory

Sample Payload Request

```
{
  "transactionReference": "FT00026252",
  "requestId": "c7d702cb-6b5f-4fa6-8b57-436d0f789017",
  "channelCode": "202",
  "timestamp": "2021111103005",
  "transactionAmount": "100.00",
  "currency": "KES",
  "customerReference": "INV-0001",
  "customerName": "John Doe",
  "customerMobileNumber": "25471111111",
  "balance": "",
  "narration": "Payment for goods",
  "creditAccountIdentifier": "JD001",
  "organizationShortCode": "777777",
  "tillNumber": "150150"
}
```

Sample Payload Response

```
{
  "transactionID": "123456789",
  "statusCode": "0",
  "statusMessage": "Notification received"
}
```

Once your endpoint is ready, share to buni@kcbgroup.com for review.
